

Poetic Slave

For more than a decade these oracles of the Poetic Slave have kept him in bondage, for practicing this Art of Syncretistic...

For he can not be palliated with a colorful discourse of a justice which is pigment contingent.....

And does not the Declaration of Independence include the right to a declination of an invitation to bear arms for your enemies? Well then I ask:

"Whose is the force that has assailed the slave with relentless fusillades of GHETTOPRESSION?!"

You're damn right I'm a conscientious objector! And they say, as they say, lock that nigger away until his bones turn to dust... though his quasi-death kills not their fears, nor the latching of their souls into a vicissitude of poetic justice!

Restrain him physically, and he will smite thee with words.
Asphyxiate his voice, and his pen shall become his sword.
Disarm him if you wish, though he's already pierced the heart.

He's transcended shackles and chains, and the people have given him allegiance. He's manipulated the genre because he's lived with Jesus (A.S.). His very life has become their death, his freedom their cage. For, he's mastered the art of turning captor into captive, and master into slave. Poetic Slave!!!
