

Santa the claus - sorry for not believing in you. 😊 But, hey, you've been skipping me for like 16 freaking Christmases! True, I was bad. But you coulda gave me a lump o' coal at least! I coulda traded that off for... something. Anyway, thanks for transcribing, & remember: I'd like a good handcuff key, a double-barrelled derringer (.38 please), & a tank (hide it in the trees around my prison please!). I know it's a lot, but I haven't stabbed anyone since 2002. Well, if it's too much, I'll settle for some leg wrestling à la natural with the sexiest guard here (you know who!) & then you can skip me for a couple Christmases, 'cause I will be bad 😊
