

## FAMILIA

© SHADHILI Tariqa murid wamuqallid shafi'iyyah madhhab ras atum-ra Uhuru Mutawakkil

Dedicated to my mother, May 24, 2012

1. They are the best & the worst. But you still love them anyway! It is the first group association, institution and unit.
2. Composed of blood and lineage, a visible legacy we all should desire and want to complete.
3. They say, you cannot choose your blood. But you can choose who will and will not be "Familia" in the truest! Sense of the word.
4. Our familia are "who we are"! And who we are, reflects on who are familia is and who we shall strive in life to be as we grow and develop through the trials & errors of life.
5. Love: of familia is the super-superglue of countless civilizations. The fabric of life and the perfume of love!
6. To be apart of familia is like a death! Indeed, it is the first gut notion of lose! We only have a limited of time in this world. Never waste it on the small things in life. Though the small things sometimes become big things.

Tell the one's you love how much you care and how much ya appreciate them. How you love them and appreciate they are youffamilia!

A Raps Uhuru original.

To Mom with all the love in the worlds!
