So now I am back. There's a zillion subjects to cover and I question how effectively I can cover the ones I feel are important.

One subject that was irritating the sh*t out of me while I was away from writing was HOW AMAZINGLY UNAWARE THE GENERAL PUBLIC IS when it comes to the California prison state...er...system.

I get letters or visits and people are always surprised that it is nothing like the 'TV version' of prisons or even 'The Shawshank Redemption'. They think we get all this great stuff like cable TV, A/c, Oranges, Nutritious meals, medical care, etc.

A good example is visiting. We are at the whim of whatever the guard says. If we get some socialist pig psychotic; No touching, hugs, kisses, hand holding...NADA.

If an inmate's family member has a medical emergency (it's stressful on people) there are all kinds of nurses, paramedics, cops running around and helping. IF it's an inmate, there isn't.

The food in visiting is usually fresh, nutritious, tasty and varied. No one believes us when we tell our families that this is the best we will eat until they come again. They have been led to believe that we get the basics and it's real & it's fresh. Wrong Again!

In visiting we have lots of board games, cards, chess etc. No one believes its all donated by outsiders - families, help organizations. The STATE OF GAHLTFORNYA does NOTHING for us inside these walls. The public thinks their tax dollars buy monopoly & BATTLESHIP, etc. NO NO NO!

In visiting we can pay \$2⁰⁰ (U.S.) for a photo. No Limit! there are inmates who don't get visits and if it wasn't for INMATES DONATING THEIR OWN \$, we wouldn't have the 'photo project' where we inmates of means can pay for photos for inmates who can't get them otherwise. People think we get pictures if we want them.

SO WAKE UP AMERICA! PUT DOWN YOUR STARBUCKS AND TAKE ACTION ... Call Former Senator Chris Webb or former Senator Chris Dodd and encourage them to speed up their prison reform referendums & projects. IF its bad in Gahltfornya, its gotta be worse elsewhere
