

Ronald W. Clark Jr "my Attempts"
August 16, 2012 at a TRUCE

page 1 OF 2

Today is August 16, 2012 9:05 am. The warden just came by, I asked to talk to him, he said he received my letter and that he would be responding back to it. That's not a good sign.

I see I wrote a letter trying to call a truce, where I would agree to shut down my blogs, not file lawsuits on the two assaults that I endured, drop the law suit that I currently have in the courts and the state Habeas Corpus. which will save the tax-payer's of Florida money, and save the warden embarrassment. From the rumors his staff was spreading.

All I asked for in return was this heightened security lifted, my contact visits returned and the reprisals to come to a stop.

The fact that he's going to respond in writing tells me there will be no truce or any type of agreement. For he's not going to put in writing anything where he admits to any wrong doing.

My hope's of a truce with this man, is out the door, which really didn't surprise me, there's too much animosity between warden Reddish and I. A truce will have to be worked out between the secretary or the Deputy secretary, it's not going to happen within this ACT administration. I therefore am going to get to work preparing a memorandum to send to the higher ups in hopes of working out a truce up at the top. As soon as the cell lights come on where I can see I'll get to work on that. I had actually started it last week before I decided it maybe worth a try to first go to warden Reddish.

I'm trying to get this truce put in place as

My Attempts
at a truce

much for my mother's sake as mine. But he (Reddish) has no compassion and mercy for her. And his hatred towards me, over rides everything else. He's broke every rule and every law the past 15 months to reprise against me and torture me, having me placed in strip cell's, destroying legal files and having me assaulted, throwing away 265, government mail and holding me in an illegal cell, that has not been approved by the rule making authority under chapter 33-Florida Administrative Codes, (F.A.C.)

I'm going to make further attempts at this truce, but at the same time I'm going to prepare to face further acts of reprisal and continue to fight this battle in and outside of court and hope that some one higher up in the E.D.O.C. will take charge of this mess and stop these acts of reprisal and the reckless disregard for the United State's Constitution.

I'll keep everyone up to date with what's going on in here. And if you can make phone calls stating a truce should be met in order to save the tax payer's money from these law suit's then please call the office of the secretary below and or send a letter of protest. Thank you.

In peace & love Tomie

Secretary Fla. Dept of corr. # (850) 488-7480
501 South Calhoun street
Tallahassee, Fl. 32399
Mr. Michael Crews is the Deputy Secretary.
