"NO TRUCE"

Today is Wednesday August 22, 2012 10:34am. and I was just confronted about my property by a CO. who wrote me a Fraudulent D.R. last August 1, 2011 and he come's by here saying you need to put your property in your locker. I had my writing material setting on my desk. so it look's as if warden B.V. Reddish doesn't want a truce, and is going to have his lying dishonorable staff set me up with another Fraudulent D.R. oh well... I think it's time to go to "Inside Edition" see if I can't get some publicity for the E.D.O.C. and maybe some one will get smart and pay attention to what's going on here.

At approx 3:15 PM. warden Barry V. Reddish come to my cell giving me a memo dated 8/20/12 denying act's of reprisal speaking on a code of ethic's. which if he truly had, we wouldn't be having this problem. I'll be sharing that memo with you. along with other legal documents that I'm going to be filing in an attempt to get this need secretary's attention. Hopefully he will take appropriate action and end these act's of reprisal. If not, Inside Edition, here we come.

That's today's news. No truce can be reached and the act's of reprisal will continue. I'll keep you up to date.

Sincerely
Bonnie
