

## Sex is Easy...Love is Hard

It seems that virgins are hard to come by these days. Sex is so glamorized and enjoyable that many people are in a rush to experience it as soon as possible. While many men and women will admit to the joy of climaxing, they will also admit that each climax is only momentary enjoyment.

Having sex these days is easy. You can meet someone at a bar, club, social event, online etc. and by the end of the night be in the sack. Love on the other hand is hard. Love takes chemistry, time, trust, patience, long suffering, enduring feelings and acts, not to mention commitment, loyalty, and devotion to one another.

I haven't had sex in eleven years and its fair to say I desire sexual intimacy "alot" (HA HA). However, as strong as that desire is...I want "Love" more. I would much rather love and be in with a woman than to have momentary pleasure with various sexual experiences.

To those reading this piece, take the time to seek joy in love rather than sex alone. When your truly in love the sex will be better anyways (wink). Take the time to let me know your thoughts on this piece.
