"FAILED TRUCE"

Page 1 OF 3

I tried to call a truce with warden Barry V. Reddish for the sake of my mother. And it was a hard thing to do, swallow my pride and extend my hand to a bum like him. Cause I don't make it a secret, I hate him. And the feelings quite mutual, he hates me too. Just look what the bum has done, broken every rule broken Federal and state law just to keep me under the harsher conditions of Disciplinary Confinement (DC) locked me up in a solid isolation/deprivation chamber that he illegally constructed back in November 2011 without the Rule making authority approving and writing up a 33-FAC or procedure authorizing the construction of this cell.

The worst thing his Fake Christian — did was denying my mother her visits. That was a low life, punk, coward chicken — a move that showed me exactly who he is. Like I didn't already know that.

But writing that letter of truce, and then standing there on August 22, 2012 talking to him, knowing he's a liar and dishonorable low life criminal disguised as a warden, it hurt me to my heart. But I did it trying to straighten this out for my mother, which is just not going to happen. Not while Barry Reddish is warden here. And not while he and his administration have free reign and breaking the law. Barry V. Reddish is a criminal as most of his administration is, only thing is their not convicted criminals. And although I'm a convicted criminal, I have more honor and integrity than the warden. For I don't lie and falsify documents I play by the rules 33-Florida Admin. codes and follow the rules and laws. which they can't say. For they are a bunch of lying two face unethical

low life criminals who lack any type of moral conduct. It's a damn shame.

The warden keeps telling this lie that I need to change my behavior. When my behavior is not the problem. The problem lies in their unethical code of conduct, and the fact that their a bunch of lying low life unethical criminals that are made with me for airing their dirty laundry on the internet. And as you can see, I don't care.

The only thing I care about is, this is causing my mother a great deal of stress and heartache. And I wish I could have struck a deal, for her sake.

Unfortunately, Reddish has no mercy or compassion for a mother's love, cause he's a sick, sadistic twisted cold hearted sorry excuse for a human being, much less the Christian he proclaims himself to be.

I can expect these low life criminals posing as correctional officers, to continue to lie falsify DRs, (state document) placing weapons in my cell and telling other lies to continue to hold me on DC. because these are nothing more than a bunch of low life criminal thugs working for the Florida Dept of Corruption.

so much for a truce, nope you have to be a man of morals a man with honor and integrity to extend your hand and call a truce. And we know Reddish is severely lacking of those qualities. Two days later August 24, 2012 the idiot set me up with another DR. saying I had a razor blade in my cell. And the only way for anything to enter or exit this cell, is by an officer opening the food flap and letting it in here. yet some how razor blades have gotten into this cell twice. Failed Truce.

IF I was the warden my first thought is, who is bringing weapons into Death Row maximum security housing unit, 2) what OFFICER'S are giving it to him, since my only contact is with OFFICERS. But Reddish isn't asking this, for he knows his staff are slipping them by security, and using them to plant in my cell and Falsife DRS. That's why Reddish and the Administration is not asking these questions. Actions always speak louder than words, and their actions speak of criminal conduct and a lack of ethical integrity. But again welcome to the Florida Dept of Corruption, where corruption runs ever so rampidly in the hands of criminals under the guise of correctional OFFICERS.

Sincerely
