

Pg 1

Hi

How is life treating you all this week?  
im doing just fine. Some days there is alot on my mind and others i just draw a blank. The life i live has got to be the most boring life i could think of. Some days i wonder how i do it. How does a person live in a cage like a animal years after years and still find a way to smile and be happy?

could you do it? does it make me a strong man or does it broke me down? As humans we adapt to any and all situations. There are people who are in worst spot then me i guess. Think about it does a homeless man pushing a cart living in dark dirty alley ways. Hungry every day clothes are always dirty. I think half the time.

In my opinion he is still doing better than me why he has freedom, choices. I have asked this same question to my family they say its a hard one to call. they are both very bad. You would have to live in my shoes for 19 years or be homeless smelly living under a bridge trying to stay out of the rain. to know how that life measures up to eachother.

What do you think?

Pg 2

a while back i signed up to use the telephone i was discussing the topic i was just writing about and my Brothers wife was telling me that its real hard to make a living out there that in a way i aint doing all that bad. Its hard for me to argue that point because i dont know wbt its like to live on the streets. Hold down a job, just to find a job she tells me is next easy.

The world out there is not as easy to live like it was when i was lost out there 1994. just paying rent - Bills is no very hard. when i was out there i had a job i was doing good but jobs are hard to get out there these days. I pray that someday they allow me a Parole date. If i live long enough to do the time the jury/judge give me i plan on getting a job first thing.

I learned my lesson and i just want the BPT "Board of Prison Terms" to give me a chance at a life out there. What some people dont realize is that state property. Im actually owned by the State of California. The strongest most powerful Union in CA the CDC California Department Corrections own me. The BPT is the CDC they will decide whether i live in here for ever or they can let me go if they choose to.

Pg 3

my Profile Page says that im being held  
hostage well its the truth. I was sentenced to  
a life term which means after i do the time i  
was sentenced to then the BPT will decide  
whether im suitable to be Paroled. Very soon  
i will explain in detail why im in Prison  
and also why the judge gave me 2 sentences.

I was given 18 yrs plus a 50 years to life  
sentence. CDC says that my Parole date is 2052  
and i have already been locked up since Oct 1994  
I had to do the 18 yrs first then i started  
the 50 yrs to life. People i done the 18 already  
can i do the 50 to life NO The BPT tells  
me that in 2045 that they will talk with me  
about a Parole date.

So you tell me am i being held Hostage? im  
sure you cant wait to hear the story of how  
i got the 68 years what i was convicted of etc  
i will explain all of that to everyone. also  
a Co, Prisoners life is Public Record. Anyone  
can get on the Computer and find out what  
im in here for how much time i have etc.

I will be the one to tell the story of my  
life I will tell the Truth. The judge the  
jury the District attorney Paint a Picture of  
why i got 68 years to life. I see it very very  
differently.

as you reveal about my life as i tell it to you  
you all can be the judge as to is Donnie  
Tinsley actually being held hostage as he says  
he is? Keep reading and you tell me. I want  
everyone to keep a open mind when you reveal  
about me what im in here for and why i get all  
this time.

Should the Government / State of Ca, coc have the  
right/power to never let me out? I have always  
believed that 2 wrongs dont make a right and  
the Time should fit the crime Remember that  
quote from me its important. I believe in the  
law. I believe theres people who should never be  
let out of Prison

Without laws were all a bunch of monkeys  
throwing shit at eachother. Please excuse my bad  
language. Remember that im not a citizen of the U.S.  
any longer. Im state Property. Im not allowed to  
Vote, i dont pay taxes. Im also one of the  
people in Ca, who was sentenced under the  
3 strikes law.

When my case was over and the judge gave  
me my time he also looked into my Past  
and used my Previous Prison Term against  
me. The judge called my case a 2nd strike case  
which meant he doubled my sentence.

Pg 5

Later on in one of my Blog Posts ill show you how the judge came up with the 68 years to life that he gave me. I was only suppose to get 34 years to life but he used the stupid state law to 2nd strike me that's how i ended up with 68 years to life.

So i now have been in Prison since oct of 1994 my earliest possible Release Date is 2045. I cant do all that time my friends. nor do i deserve that much. Its a Prison sentence that no man could ever do. Honestly this sentence is against the law but i dont have a attorney to file and get my sentence fixed.

Well maybe i put thought i would write a few pages. I doubt that this will be posted this week but next week hopefully. Everyone please be patient with me i have lots of things to tell you all. I dont really want to discuss my case just yet but i will.

Till later

I Love you all

Donnie
