Sergeant ORIQUE interviewed me for an appeal I filed because our prisons medical hospital is dirty here at Corcoran California (SATF) Instead of acting in a professional manner - He threatened me to cancel my appeal. I told him NO I want to see the hospital cleaned. He then mentioned my prison number - because of the 24 years of incarceration I should know not to file appeals. He turned his attention away from the issues of the appeal. Stating your worried about the dirty floor when your a piece of dirt Rapin a woman. A filthy nasty Rapist - He continued with my prison case as if his mannerism was going to scare me in dismissing my appeal. I held my demeanor and tried to keep his focus on the Appeal issue. He finally said if you want it clean why don't you clean it - I told him its his job to insure that the hospital was clean.
