WARDEN BARRY V. REDDISH. FIRED, TRANSFERED OR FORCED TO RESIGN?

Warden Barry V. Reddish's criminal activity and unlawful conduct inside of Union Correctional Institution (UCI) has been brought to a halt. This no good criminal thug has been dismissed by executive staff in Tallahassee. And no one is more happy than I am! The initial report is that the Colonel, and numerous officers are going to be relocated, and there's going to be indictments, behind the assaults and other criminal activity that's been taking place here. This is sweet, sweet music to my ears!" I wanted to see this no good law life SOB fall, and here it is happening. How sweet it is!" I'm overjoyed by this news and I hope they indict him. Couldn't happen to a more deserving person. I've heard he was forced to resign, and I'm hoping that's the case, for that means the FDOC not only recognized his unlawful criminal activity here at UCI but it'll show what I've been saying all along, that he has no honor, integrity, and his ethical conduct is straight B.S!" which is what I've been trying to make people see.

I'm currently writing the media trying to get them to look into what's really taking place and run an investigation and a story. soon as I know more, I'll be back with another blog. until then, take care and fight the good fight.

Sincerely
