

The Road To Nowhere...

* IN GAHLFOHNYA - Der People's Shtate *

This state never ceases to amaze me. The idiots in charge spend UNTOLD BILLIONS of taxpayer dollars to buy FLEETS of vehicles only to sell them, mostly unused for pennies on the dollar.

They cut education to the point that the dumbest generation is about to be out-done by the even dumber than that group.

They raise college tuition so high that only the elite can attend.

They cut EVERY social service - EVEN THE GOOD ONES to the point where it constitutes cruel and unusual punishment on the elderly and mentally or physically handicapped.

BUT WOW! They can give the prison system EVERY dime they ask for.

They can spend MILLIONS to fight laws such as Prop 8 - the same sex marriage ban, while fearing normal families apart.

They can fund High-Speed Rail projects to the untold billions for decades to come - while leaving hundreds of roads and bridges in unsafe condition.

Beware America! California is going to run you. All of these are real headlines from KCRA 3, KOVR 13, KCBS 740 AM AND KICU TV 36 Today...
