

Food Trucks

pg 10f1

I been reading "alot" about the growing popularity of "Food Trucks". It seems like such a great business opportunity and it puts one in a position to constantly meet new people and have various experiences.

I enjoy cooking alot and im "seriously" entertaining the idea of getting, renting, leasing a food truck and getting into the business myself.

Im looking for any and all information out there on the food truck business. Im sure theres some types of licensing, ~~permits~~ permits, health codes, etc and I just wanna be on top of all that.

If you know someone or your involved in the food truck business Id love to hear your stories and advice.

Thanks for checking ~~in~~ out the blog and sending your comments. Please forward the food truck info to:
