

Dear Nicki

Thank you for your kind words and for taking time to share what's important in your life. I wish I had access to computers. The prison will not allow us direct access. Rules rules Ha!

I wished I'd had kids - you're very blessed, I will not be so fortunate to leave a legacy of people that will remember me - I wish there were more chances for me to make things right. Ta Ta 😊
Enjoy the rest of the good weather.
