"New Admin"

Page 1 of 1

We now have a new Administration here at Union Correctional Institution, (UCI) and from what I can tell so far, they seem to be honest law abiding Correctional Staff, which is a major turn around from the unlawful Criminal Administration of Warden Barry V. Reddish, a man, and an Administration who lacked honor, integrity and any type of ethics.

Yes our new Warden - seems to be on the right path to ending the officer on inmate assaults and other unlawful and criminal activity, that Warden Barry V. Reddish was instilling into UCI Staff.

Although Reddish has been removed from UCI with his criminal cohorts such as the Colonel several Captains and Lts, I'm not at all satisfied with these groups of Criminal Correctional Staff members being spread out into other institutions. That's not the answer. Warden Reddish needs to be demoted along with that sorry no good Colonel. These two men are low life Criminals, Human Rights violators who allowed men like myself to be assaulted by their staff... hell they probably ordered those damn assaults!" But the fact that they had a man murdered who was in their custody, just shows that they have no business whatsoever, being in authority of other human beings. Nope - I'm not done. I will not be satisfied until Barry V. Reddish is removed from the F.D.O.C.
