alishafletcher89,

I received your
Smiling Face - thankz!

I appreciate you stopping and
reading my last post.

I've learned so much about human
beings over the last year, that it
has changed my outlook.

If you are a Conscious-minded
person, let me ask you this
question; ~~to~~ do you think
Solitary Confinement should be
abolished from American prisons?

The reason I ask this question
is because doctors are now
saying Solitary Confinement can
drive human beings to insanity.
Plus, Psychologists are saying
Solitary Confinement (isolation) is
a prison sentence within a
prison sentence.

If I can get your thoughts, and
opinion on this subject, it would
be highly appreciated.
