### QUESTIONS:

- ① Do you think a 'Digital Divide' exists between inmates and society at large?
- ② If so - do you believe it could have a negative impact upon an inmates ability to make a successful transition back into society.  
(90% of all inmates will eventually be released)
- ③ What do you think can be done to 'Build a Bridge' across that 'Digital Divide'?
- ④ What are some of the potential problems affecting the implementation of your answer to #3?
