

STONE HEART

My Neighbor is a hardened Criminal
He exposed a nasty past life of murders
for hire, that he'd done behind meth.

I don't know why he thought I
would like to engage him in a vile
conversation, perhaps he thought his
Jesse James life style would impress
me. This would be a great post for
F.B.I agents to listen to Confessional

Just listening to him talk so
casually about his crimes made me sick.
I'm sure I wouldn't make a good priest.
The California prison is full of men
that committed murders that have
gone unpunished. These wanna be
gangsters should be trapped like the
filthy rats they are. Who can speak
for the dead.
