Hi, Jess!

Thank you for responding! I always enjoy hearing from my readers and feedback is always important! As I tell everyone: Stay Tuned! The best are yet to come!

From "More Morons..." and "Opinionated Jerk":

Sunshine Florida? Haven't heard of it before. It's not on my Nat Geo free map. Where's that at? Is there really such a place as Tangerine, FL? I heard the name once but that too isn't on the map I have. Also - the next "Morons" will be up soon! Check in for more laughs!

From "Andy's Rap" and "Booger Eaters":

Thanks! It's a kind of "Beastie Boys" type of sound. I've got another I'm working on. Wish me luck!

And NO, Booger Eaters was no poem or joke. That is 100% serious. It's disgusting and something I had to blog. Do you have any idea how difficult it is to play cards with a guy while he's sitting across from you looking for nuggets? ICK!

But we aren't all perfect right?!? Happy Thoughts!
Andy
