Charges Filed Against Sean Riker's Ex-Wife for Downloading Child Porn

On the second page of this post you'll see the letter that the prosecutor in Sean's case sent to the judge (i.e. Allan B. Torhorst) who reviewed my petition under Wis. Stats. §968.26(2) to have Sean's ex prosecuted for downloading child porn onto his computers while he was in jail. This made her clearly guilty of §948.12 Possession of child pornography, (1m), and, because she falsely claimed that Sean had done so, §942.01 Defamation, etc. I wrote the petition, filed it in my name (for various strategic reasons) + supported it with Sean's affidavit about what he knew and what his computer forensic expert found out.

It was more than enough to support the charges. All that was needed was my factually specific allegations (e.g. "on ___ (date) ___ (person) did ..."). There's no requirement that I was a personal witness to the criminal activity, just as there's no such requirement for detectives who draft criminal complaints.

Conclusory allegations are factless (e.g. "she broke the law"). My allegations were very precise. But, the D.A. threw some jargon out there, probably ass-u-ming I didn't know the meaning of "conclusory" + the judge, like too many judges in WI, ran with it. Surely they both are competent lawyers, meaning they must be crooked rather than idiots.

As I filed a second petition in the same court, handled by the same judge, similarly blown off (it concerned Racine Co. Jail staff beating Sean), this case no. may be for that Petition, not the one about Sean's wife.

In any case, I couldn't appeal. No postage. But I wanted readers to know what's up.

Crooked P.A. + his puppet judge.

Love + Respect

Nate

Circuit Court Branch 10

Re: In Re: Complaint for John Doe filed by Nate A. Lindell, 12JD2

Dear Judge Torhorst:

The Racine County District Attorney's Office is in receipt of the Order for Referral in the above-entitled matter, along with the underlying petition which had been filed.

The Racine County District Attorney's Office will not be issuing a complaint in the above-entitled matter.

Mr. Lindell cites several allegations which amount to conclusory terms. First a John Doe complaint must do more than merely allege in conclusory terms that a crime has been committed. The complainant's petition must allege facts that raise a reasonable belief that a crime has been committed. *State ex rel. Reimann v. Circuit Court for Dane County*, 214 Wis. 2d 605, 571 N.W.2d 385 (1997). Mr. Lindell would have no first hand knowledge of the events that occurred in Racine County during the relevant time period submitted. Mr. Lindell has been incarcerated in the Wisconsin Prison System since March of 1998. At no time during this time period has he ever been housed in Racine County. He would have no first hand knowledge of any allegations cited.

Mr. Lindell's petitions for a John Doe hearing includes an affidavit, which appears to have been fraudulently subscribed and sworn to. The affidavits are not properly notarized. The allegations in these petitions appear to be allegations put forward during Mr. Riker's trial in Racine County. Mr. Riker was subsequently convicted and sentenced in Racine County.

Yours truly,

W. RICHARD CHIAPETE
Racine County District Attorney
