# ALLREADY Under Federal Receivership California Dept. of Corrections and Rehabilitation

Is waging a cost saving maneuver  
against its infirm and disabled population.  
Further violating their civil and Human Rights  
Rights that even though incarcerated are,  
what's the word? Inavailable? Many inmates  
in their uneducated use of the appeals process  
continue to suffer at the hands of these  
**KEEPERS**-Upon reception at a transferred or  
facility, Dr.s are routinely removing prior  
existing medications, appliances, limitation erosion  
Even removing long standing ADA Patients  
of their medical status, III Report  
no more, Inmates Have Died.

Many are suffering needlessly. I have been transferred  
again, I Present to the interested  
a case I am Deemed to lose  
because I have attempted to bring  
it myself, I have no aid or computer access  
**REMEMBER** the two monkeys with bats  
on the ATMCO Transmission commercial, that's me  
The aforementioned Doctors are acting contrary to law

New home new issues 

Black Widow, was a good issue,  
but if you knew, why'd you stay?

How about that Prop 36, 3 strike reform  
good luck, Can't Believe everything  
you hear or read, remember?
