The Fleecing of California

Because of the fact that California Department of Correction and Rehabilitation, have done such a terrific job in hoodwinking California's Taxpayer's, into believing that Calif Correctional Officer's, do have a Highly Dangerous, Stressful and Demanding job, I feel it is my place to give Calif taxpayer's a real, true and live experience of what a lie they have come up with.

Calif Correctional Officer's belong to a Union that's Calif Corr Peace Officer Association (CCPOA).

As many of you have probably seen in the early 2000's CCPOA Aired Commercials Confessing to walk the meanest and toughest beat in Calif.

They showed scenes of inmates rioting with each other, then there was the shot of the female, 40ish years old with a blackeye swearing that each and everyday in prison as a C/O is extremely Dangerous.. Years of COCR making these claims, accusations, they have been able to manipulate lawmakers and the tax paying citizens of Calif, into voting, Extorting and pressuring them to passing bills that raise their workpay, and/or Salaries.

Now, I'm not saying that staff assaults don't happen they do, but not nearly at the rate they insist it happens.

nor with the serious injuries. A COCR Rules states that accidental contact constitutes battery on a peace officer.

For an inmate to simply trying to verbalize his/her point, I have witness staff emptying an entire canister of pepper spray in their faces, and on their bodies. If you have ever experienced, heard of, or been exposed to law enforcements pepper spray. Yeah! they got the good stuff.

The ~~Correctional Officers~~ that works behind the walls we (inmates) live behind are hoodlums drug dealers, sexual predators, the phone salesman/women, the smugglers, and the knowing and willfull violators of inmates Constitutional Rights everyday.

Today is Sunday, so there's so much football on Television at this time, the average red blooded man can resist to take a seat and watch the game, and Yes!, I mean the C/O while they are on Duty. They sit in our dayrooms and will watch an entire football, base ball, basketball Olympics etc... with the inmates, or while we are locked down.

Another one of there must do's are Potlucks, Retirement Parties and Card playing. I watch staff as each yard have close to 50 C/O and I have watched them bring, and carry

Casserole dishes, Cakes (sheet cakes)

Crockpots, Cases of soda, Chips, pies and
any and every food imaginable and this is
something that goes on constantly.

When inmates question them of
there Distractions while on Duty, Their response
is; "if it's not on camera, the inmate is
lying."

I've come to learn and find out, the
Only difference between a C/O, and an Inmate is
that the C/O didn't get caught committing their
past felonies, and ~~you're~~ correct, I can't say all
of them, but I can say all of them are liars
Dangerous, and violate American Inmates
U. S. Constitutional Rights everyday.

I'm so sure that the \$25.00 per hour
pay rate is too high, It's plenty of folks out
there in Calif, would do this same job at \$15.00
per hour w/benefits, plus Overtime Every Day.

I decided to write this blog, just
to bring to the attention of the taxpayer's that
Calif Dept of Corr and Rehab is laughing at
you all the way to the bank, their Bank!

After Reading this blog, I'll understand
if you run to sign on to join the free handout of
money, or wanting to vomit in Disgust.
