"you want me Dead?"
Page 1 of 2.

some people who follow my blog ... well they don't like me, and they think I should be killed.

Well I'll tell you what I'll do for you. You want me dead, well here's your chance to be an active participant in my death. IF you can put enough pressure on the Governor who is Rick Scott, to step outside the way things are done, and you can get Governor Scott to sign my death warrant, the moment he signs it, I'll fire my Attorney, who is one of the top five appeal attorneys in the state of Florida. So there's a damn good chance she'll get me a life sentence. But the moment the warrant is signed, I'll fire her and drop my Federal Habeas Corpus. There you have it. IF you hell bent on having the state of Florida murder me under the mantle of justice, then here's your opportunity. IF you want it bad enough, then you'll make it happen.

Just dropping my appeals won't make it happen. There are numerous guys sitting here who have dropped their appeals, but the Governor for one reason or another won't sign their warrants.

In 2002 Sanchez was trying to get the Governor Jeb Bush to sign his warrant. He had given up his appeals in the late or mid 90s. He even killed two death row inmates on April 19, 1995. And in July 2002 he stabbed and tried to kill another death row inmate name Ray, which Florida state prison staff put Sanchez up to, they hated Ray and wanted him dead or messed up, so they allowed Sanchez to take the knife on the yard and stab Ray. But Sanchez had to do that to get then Governor

Bush to sign his warrant. which he did, and on October 2, 2002 they executed Sanchez. Hard to believe it's been ten years.

Anyways it's not as easy as just dropping your appeals. William Cody dropped his appeals. The Governor wouldn't sign the warrant.

Cody about three years ago, late one night, cut himself up, and got under the blanket, and they found him at breakfast.

If you want me dead, here's your chance. make it happen, and so the ball's in your court.

Please take care and to all the haters,
I still send you peace and love and wish
you a very merry Christmas and Happy New
year. Cause mine, of course will be crap.

In peace + Love

Connie
