

Kelvin Liu: C8MD

Nice to See you.  
Dont get a lot of  
visitors around  
here anymore.

I have used  
Pastells on very  
few Toons.  
except on  
Portrates larger  
than 14x20 inches  
I dont really like  
Pastells.. They make  
Portrates more life like.

I Mean I dont  
like them But  
they are Great on  
Portrates.  
YEP I'm  
stupid

AND

Thank you  
for the X-mas  
Card - And  
little Santa.

I hung  
Santa  
on my  
Cell door.  
COPS hate  
That too..

I'm working  
on more Toons  
and updates  
on my life.  
and what a  
life it is...

I have 2  
Christmas cards.  
Better than my B-day  
Turnout.. Sorry  
This is so Rushed,  
been bringing work home.

I restore, refurbish  
& if needed Rebuild  
old stuff for the Gov.  
of Kentucky and  
more frequently  
private sector  
Corp. It's more brain  
work than anything.

the equations to  
account for steel stretch  
when press bent is  
very time consuming.  
It varies with the metal  
thickness - and I don't  
have access to calculators.

Please Come Back

I'll Post Something  
soon..
