

Who Am I ?

Am I the Product of my imagination?
Conceived in the womb of the
experiences of my life.

Am I someone that you think you know?
A concept born of your emotions
and experiences of your life.

Am I the words used to describe
The circumstances of my life?
Word passed along by a generation
long forgotten,

OR, Am I that instant spark of recognition,
reflected upon the screen of life as the
image in your mirror?

A Perfect being whose existence is,
the same as yours at all times
Who Am I ?
