"About my Trial" and APPEAL

yes I had a trial, where I was represented by an incompetent attorney who had never handled a capital case. This attorney was so incompetent that he doesn't hire an investigator, and he doesn't even go across the street to the sheriff's office and look at the physical evidence that they have. This attorney fails to call witnesses for the trial that showed my co-defendant was lying and committing perjury. This attorney fails to cross examine witnesses. What took place with my trial, you can't even call it due process.

When my appeals get started, the judge David C. Wiggins who appointed this incompetent attorney to represent me at trial, is now handling my appeals. On June 18, 1996 I'm granted a hearing on Ineffective Assistance of Counsel called (IAC) and prosecutorial misconduct. The judge then sits on the case for eleven years. Why? Well because my incompetent attorney had become a judge, and my lying ass prosecutor who put me on death row, and allowed the trigger man a deal that would put him back on the street was also now a judge, so judge Wiggins lets my appeal set dormant for over a decade in order to protect these two judges who was my trial attorney and trial prosecutor. Trial I didn't have a fair trial, and these appeals have been a damn joke. And our screwed up American justice system wouldn't have and couldn't have done this to a rich man. But I'm poor white trash, whose been represented by state paid attorneys, who don't give a damn about anything other than the financial gain they're going to earn off my case number. So I had a trial or due is a screwed up united states screwed me

no one can tell me I process. What I had experience with the judicial system that over why it perpetrated
EQUAL JUSTICE CRAP!

I can show you case law where Judge Wiggins should have disqualified himself once my trial attorney and prosecutor became judges. My attorney and I filed the proper motions for disqualification, but he didn't want to lose control of the case he wanted to be able to manipulate these appeals, appointing what counsel he wanted ect ect. The fact remains, that there's been no fair trial or due process in this case. It's been one screw up after another.

Judge Wiggins appointed Henry Davis to represent me in 1990. Mr. Davis had never handled a capital case. And you look at other capital cases, they had two attorneys, one of which has to have some type of capital experience. NO - what happened in my case, should have never happened. I'm going to dive into this much deeper in the coming months, and show you just how poorly that I was represented during this piss-poor ass trial I was given. Cause it was a fraud, plain and simple.

There is so much injustice in the American judicial system and there's absolutely no reason or excuse for this injustice that's focused on the poor.

Thank you for your time.

In Peace + Love
