

aleta:

I've been down for over 13 years and I can count the truly happy moments on one hand in that time period. After receiving your "comment" I may have to use both hands. And maybe a foot if I don't stop reading it! I'm not used to that kind of language but I could sure use a lot more just like it! Thank you so much for your thoughts. You are a beautiful person. I hope that's not the last I hear from you!
