"Climax"

By: Nasir Wali Muhsin!

OK! So today I woke up with the most profound question on my mind. Notably it was a question that I myself could find no clear and or correct answer to, so I took the question abroad = well not so much as abroad like around the world but to a few of my fellow comrades and associates, but despite all of our collective brainstorming, elaborate dictionaries and dialogue we still fell short of a answer to such a profound question!...

Surely by now you're wondering what this question is that got over 30 men thus far or that I know of perplexed!! Actually I'm not a gambling man but if I were I'd put up top dollar and say that you could ask 1,000 men and ironically 1,000 (women) this question and you'll get the wrong or no answer at all!! The shock however would be that "woman" or a bet most women don't know or want know unless they look it up on some net. or wikipedia etc....

without a doubt we could spew out several nick names for this answer but the

"Sir NAME" is THE ONE I SEEK!... let me start
By asking - what is THE TECHNICAL NAME for the
fluid that MEN/MALES ejaculate when they or
should I say (WE) climax or reach climax!?!
OK-OK-OK! lets Not all shout out SPERM at ONCE!!
we all know that!! just the same we nickname
it Nut-come/cum etc. etc!! whatever you call it
as a man I can attest that that sh#! feel good
as Hell bustin up outta my bat!!

"But wait"!!

So too close women have a point of climax
in which or at which point they ejaculate a
"feel good fluid"... The Question is: "what is the
Technical Name - The Sir Name of that fluid
women ejaculate at the point of orgasm!?! Surely
Orgasm or sexual exclamation is the feeling But
what is the (fluid)!?! of course like the nicknames
for the male fluid we could call it Nut or
Bustin a Nut or Cum But whats The Sir or
Technical Name!?!

its crazy becuZ At times I'm surrounded by
inmates who claim to be pimps-players-chick magnets,
female connoisseurs etc.etc {Might I add that their
all "self proclaimed" so you know how that goes... lol!!}

ME!?! Oh - well I've claimed to be a bit of all
in my pre-Muslims days!! Now! I just thank Allah
for given me the opportunity to have some beautiful
experiences with those women in my past and path
However I'm not so naive as to say or think I
know everything or even a lot about women - I may
know a lot about (A) woman here and there but
we all know that all women are different from
each other so we/I won't get far with that!...
still too - I don't know the name of that fluid!
seen plenty of it before - even had a little taste -
taste from time to time  {did I just write
that!?! HA.HA.HA l.o.l  }

So there it is! The question of the day!
What is the technical name of the fluid that
"females" ejaculate when they reach climax or
sexual exclamation!?!?!?

In fact - I'll send the 1st (3) people so
who answers it correctly  (smile)

I am: Nasic wali Muhsin!
