## "Gods style"

What could I say  
To entertain a holy Angel  
And what would they want  
With a Sour Puss like me

Words are like little flowers  
That are strategically planted -  
To make dull words stand out  
Gods style - A Bible

Through out old Jerusalem he showed mercy  
Sending Jesus to those that lost thier way  
When man Repents Angel are Joyful  
Perhaps I'm not a Sour puss after all
