

WHAT DO YOU EXPECT? 3-6-13

What do you expect from someone you punished?

What do you expect when as a corrective/rehabilitation method you cage someone up?

What do you expect when you don't lend a hand but slap it?

What do you expect when you debase a human and cage them like animals?

What message do you think you're getting across?

What do you expect when you de-socialize a socializing human?

What do you expect when anger and resentment set in?

What do you expect to happen after leaving someone in a box with little to no people skills?

What happens when a prisoner can't get a job?

What is your goal by means of imprisonment?

Has the penal system stopped crime or increase it?

Hasn't all prison rebellions thought you anything?

Why can't you see that your way of rehabilitation is a joke?

Why don't you care to fix the problem?

Why haven't you fixed the problem?

What is the true meaning of your penal system?
