Greetings!

A man/woman cannot move forward without solving their problems. Some of the steps needed in order we as a good doing righteous people most do is to simple have a 'ball'. AKA, we must find better way to apply easy and comfortable methods to incorporate within our teaching to "everyone"... No one wants to be tressed and overburdened with 'more' task and responsibility than they have to. Now I know this will be slightly difficult in times like this (economically hard). Yet, this might also be a 'great' advantage to do some old fun things our grand parents use to do. And these activities will be cheap!!!

We in prison due to extreme circumstances tend to take just about 'every' thing to seriously... The elongated falsehoods should be tore down.

I am doing fine considering the situation I am under. My battle for perfection & greatness is daily contact with the reality of the overview of the world...

I thank you for reading a 'peice' of my thoughts... More next time
