Mr. Michael Gomez, thank you very much for contacting me, and sending loads of human rights information, and you must definitely know what you're talking about. The system all over America, has kinship to all the misfortunate, who stumble into this blackness.. Sadist minds developed this whole concept, captivity goes all the way back to slavery. Society will never eradicate crime, every day a new cause will arrive, and society must take action against those who violate the law of the land, because we all make choices, and I don't understand how you don't see the prison inside, I want people to see through my life story all the dire situations, and how every step lead me here. And there are gonna be times you will have to deal with all the drama that come with these situations. It was designed to make you jail, to dehumanize you but great people have survived prison walls like political prisoners as there called, Mandela for one and even Hitler imprisonment for Jews. Georgia do not pay inmates for their labor.
I think working for free should be banned
since inmates maintain prisons, make everything

for the state while your family spend all kind
of money on everything to help you within
these places. Everything's over rated. but
with Obama it should wake up a lot of people
that America, And all those who dont want
change, still deeply rooted in ignorance.
And these are the same mind set of people
who control prisons. there are some people
actually in prison, wrongfully convicted.
The key is upon parole every voice should
still be heard, but people get out, And dont
look back, that's a major problem also.
So think about that, what's your destiny
