" Broken Reflections "

I am da ghettos, projects and poverty
And I am da Misery, agony and pain
Da THC, Alcohol and cocaine
Listen when I spit flames
And ignite America's propane
So feel da burning of pain
Da top of da food chain
Steadily accumulating major change
While da poor stays da same
Da poor stays poor and da rich gets richer,
Is da capitalists aim
Our streets are flooded with cocaine
Crack melts when it touches flames
Melting da cells within da brain
Men become inhumane
It's even harder women
Jus' to let da metal touch da flames
They're selling their body with no shames
Ballers screaming, "It's all part of da game"
If it was their mothers,
They too would be ashamed
Prison is apart of da game
Is it worth da change?
Fatherless kids not well trained
Running like loose trains
Daddy was a baller
So they wanna be da same
So they push cain

②

Pack chrome thangs
Killing Able like Cain
9/11 planes left America in pain
Forever embedded in societies brain
But they've forgotten about,
Da winds, water and rain
Dat engulf the southern plains
Her name was Katrina
She hit harder than Serina
People sitting on roof tops
Cuz da water is getting deeper
Those at da bottom,
Swimming up for a breather
Houses floating, bodies floating
Everything soaking
News Anchors on da scene
Looters on da T.V. Screens
More important than da destructive scenes
Bush sent out FEMA
But FEMA caught amnesia
Ghetto inhabitants shaking in seizures
Shaking from da amnesia of FEMA
Some try to escape across da bridge
But was Stop!
Some shot at - Some killed
Cuz they were trying to cross-over
to where the white-folks live
Cuba tried to give

(3)

Fidel try to send over doctors
to help people live

Da Bush Administration stop him

Yeah, this is what they did

How can America disown Her own ?

But this isn't something ~~unknown~~ unknown

History has shown

Colonization was da beginning
of World Domination

Da results,

Da end of Ancient Civilizations

Natives going thru Re-education

Relocated to reservations

Slaves in plantations

Da birth of America's economical Capitalization

Chinese immigration - Railroad constructions

Then came the Chinese Exclusion Act

work for them became forbidden

Da Japanese because of their ancestry

were keep in concentration

Secret bombings in Laos and Cambodia

Forced da Lao, Hmong and Khmer peoples
into a great migration

Now in America their culture and traditions
are slowly dying

Due to assimilation

Modern education ~~isn't~~

Nothing but psychological manipulations

④

No mentions of da Zulu nations
wounded knee,
Da ~~be~~ bravery of Sioux Nation
Japanese Shoguns or da Chinese navigator
before Columbus da globe they navigated
Do you smell America's propane
Feel da burning of pain
I am da flame
I speak for da Zulu son
Who seeks out his kingdom
Da courage of da Native warriors
who fought with Pride and Honor
I represent for da Honor of da great Shoguns
Keeping alive da essence of da rising sun
Fighting hard like da Shaolin
It keeps me in peace and fight with discipline
I am not just da ghettos, projects and poverty
Or da misery, agony and pain
Da THC, Alcohol, and Cocain
I am also da anti-dote fo' da crackheads
Da resurrector of da brain dead
Da vision fo' da kids
A brother to da brothers
A support fo' da single mothers
Da voice of da voiceless
I am something lethal
Cuz I am for da people
And I am for da Struggle.....
