

## BIEBERS' ALRIGHT

Justin's been getting into a lot of trouble lately but let's just take a second and remember that he is 18 and trying to discover who he is as an adult. Justin the only advice I could give you is to take a deep breath and relax, you have years to discover who you are or to become who you want to be. However you need to be careful who you hang out with and think before you trust people as friends because there will be many out there who will try to use you. Also remember that gangstas paradise is just another way of saying prison. As for everyone who is elbow deep in Justin's business, take a step back and try to think back to when you all were 18. Well Justin you take care and even though I've only heard a couple of your songs, I know you are very talented just look how far you've come. Peace ♪ DONAVY
