communiqué # 2

Special Attention, Unit "L5"

wish to make contact with old comrades  
to carry on the continued para-legal effort in which  
we gather together, (evidence), pieces of the puzzle to  
form a perfect picture in which I was framed. Seeking  
also to reunite old contacts separated in 1993. I'm  
looking to put together those broken pieces of my life, (and  
long lost relationships) that keep me a political  
prisoner. I want to put those collective pieces of  
"evidence" together, with a firmer bond in order to take  
this case of mine out of the hands of corrupt authority  
figures, from under these walls that oppress me & back  
into the streets to hold court once again. And get the  
fair hearing I have never gotten.  
This is a public message.  
Waiting anyone's response!
