### NOTIFY THE MEDIA

I need support to overcome the miscarriage of justice I continue to suffer for over 30 years! At this point I have no appeals in the courts and consider that to be to my advantage. As I now have a window of opportunity to seek prosecution of the overwhelming evidence of having been tried in a kangaroo court, and in suffering the same fate throughout the appellate process. All of which should not have taken place unless the evidence reveals a pattern of complicity to oppress and suppress the evidence of racketeering by a faction operating within Florida's legal community. The evidence of vigilantism, slash, racketeering operating within Florida's legal community is overwhelming in my case. Which is why the window of opportunity in not being subjected to the fraudulent representation imposed on me by them, is now to my advantage. As I can now seek help before the court(s) of public opinion through my pleadings within this blog to help end the miscarriage of justice I suffer. Florida's legal community as vanguards of the law must be held accountable to protecting the integrity of the law. Florida carried out an execution today 4/11/13, and the media gave it minimal coverage. This concerns me, because I want media attention! I want my allegations of corruption within Florida's legal community investigated and prosecuted. Help me obtain the media attention I desire to shame Florida's legal community to protect the integrity of the law through finally giving me a full and fair hearing on the guilt/innocence issues of my case. While bringing those guilty of violating the integrity of the law to justice!

Respectfully,

Milo Rose
