

Cougars...I ~~xxxx~~ Like'm

I have noticed in recent year that the term " Cougar " has been associated with older women who tend to date younger men. The more I watched this trend take storm then the more I realized that I myself have a liking for older women.

I think it mostly has to do with the fact that I've matured and seek the maturity, swag, confidence and beauty that most ~~you~~ older women have. The Cougar of today has a beauty that can't be matched and I really do appreciate that.

Ultimately I believe that love is love, sex and passion is sex and passion, and at the end of the day there is no Race, size or age that can pull us away from what we are all attracted to ~~the~~ the most.

I'll be out soon and I have no idea what dating will be like for me but I look forward to the process and I'm sure I'll probably be with a cougar :)
