in my experience the colorado department of corrections is completely oppressive & corrupt, especially the guards & prison administrators, whose work directly involves extreme oppression & corruption, & this is supported by the colorado legislator & the colorado supreme court, this system provides & reinforces racial & class infrastructure, at the expense of racial & class oppression & corruption, & environmental destruction, those who support the blanket use of force to maintain this system, are themselves legitimate targets for defense of humanity & the planet, all of this are different forms of racial, class, & political militancy, i advocate for a organization with militancy as a aspect, i'm doing all of this under

extremely torturous conditions, where my martyrdom can be the only outcome, this is all part & parcel of this prison administration on going efforts to sabotage me by regressing me as far as they can, & this prison administration is one of the most regressive,
