Hi,

I appreciate your help with my blog. A while back you explained to me how you converted the pdf files to a text document and you said that with the right software, it is relatively easy to do.

I am in the process of having one of my books of poetry scanned onto a DVD as a pdf. file. It is about 100 pages long. How hard would it be to convert it to a text document?

I want to submit it to a publisher to see if I can get it published as an ebook but it needs to be in text format. Would you be willing to convert it for me?

I can't post it on my blog because that would constitute publication. No publisher would accept it if it has already been published online. Can I have someone send it to you as an email attachment? If so, send me the address and I'll have it sent to you.

I really don't know if I'm asking you for a really huge favor or if the process only takes a few minutes. But if I'm asking for too much, feel free to decline my request.

Thanks. Harlan
