Prayer is a powerful tool whose beacon of hope shines God's Will upon our lives.

This deserving online effort aims to bridge a gap between culture and religious beliefs, uniting free people and prisoners together for one goal --- intercessory prayer amongst all faiths. We'd like to become a special place for peace, direction, comfort, strength, encouragement, and healing while bringing Him honor and glory with like-minded others from all walks of life.

Social reform, truth in justice, and freedom from wrongful convictions sit atop a very long list of challenges for countless faith-filled prisoners whose consciousness of God's presence and love can easily become neglected by little or no fault of their own. Prisons are atypical breeding grounds for supplication and grace.

We'd ask that you leave your prayer request / answered prayers with us, regardless of what side of the cell door you're on. Use this venue to galvanize our movement toward inspiring others to embrace the power of prayer while seeking His blessings upon their journey and the journey's of those beyond prison walls everywhere.
