

THEY KILLED MARK FINSTEIN & LENNY WESTMORELAND!

Two more * **MURDERS** * here at MCI Shirley last week. The medical and security staff killed Mark Finstein and Lenny Westmoreland: both lifers who were turned into deathers!

Mark Finstein was an HIV positive prisoner who was reduced to about 100 pounds due to his inability to properly feed himself. The medical staff (UMass Correctional Health) Took away his HIV keep on person meds! When he stopped going to the med window to pick up his life-sustaining meds no one checked on him: no one cared. Mark was in severe pain. He started to self-medicate with pain meds that make their way into prisons. When security staff (the inner perimeter security team) caught him by way of a dirty urine test they took away all his pain meds. Mark was in such severe pain he chose to die! The IPS and UMass are guilty of murder! Marks feet were swollen like balloons. When medical staff saw them they gave him "motrin" and sent him back to his cell. Not too many hours later he was DEAD! These fucking murderers are SCUM!

Lenny Westmoreland was an activist. Inmate Council Camp Chairman at MCI Norfolk from 1987 to 1989 he fought for prisoners rights and adequate medical care. When it was Lenny's turn to get some of that medical care THEY KILLED HIM! Lenny had a severe back pain. He was told it was "sciatica". I watched him go from 170lbs and limping, to 160lbs using a cane, to 145lbs in a wheelchair, and then about 130lbs and to his grave! "Sciatica" must be UMass's new term for "Cancer" as Lenny's body was riddled with it when he died. UMASS CORRECTIONAL HEALTH CARE KILLED LENNY WESTMORELAND!

How many more * **MURDERS** * are we going to tolerate here? Who is going to investigate what these SCUM are doing? I'm going to contact the press and others. Please help me get the word out.

The crack goon squad here, led by Captain Stupid, went in to shake the F-Block down during their anger crazed 3-11 shift. Some men resisted and every cop in the camp had to run down there. You should have seen these fat drunken bastards running across the camp, bellies bouncing, lungs heaving, alcohol coursing through their plaque filled veins. It was like the charge of the Budweiser Brigade! The sad fact is that this is a tactic by the anger-driven Captain Stupid to try to get the prisoners to go "off" or riot. They are trying to open up more jobs for their family. All they talk of here is "union business" and they have gotten so lazy that they complain when they even have to stand up. It is the biggest waste of \$517,000,000.00 the state has ever had.

They had "guard appreciation week" here. We all laughed out loud as we know that every other week they have guard appreciation day - it is called "payday" and these scum should pick up their checks with a ski mask as they are surely robbing the state. The fed the pigs here slop

out under a canopy that your tax dollars paid for. Culinary arts made them chicken breast and cordon bleu and the hogs went to town. They also stole food from the prisoner kitchen, eclairs, cake, etc., but you can bet no record of that exists. They locked all the prisoners in early, on both shifts, and took turns bellying up to the troth of state appreciation. 2.2 prisoners for every employee and a \$517,000,000.00 prison budget (with 68% going to salaries) is not enough. The hogs must feed as well! The swallow hot dogs without chewing them while the safety of your streets diminishes daily. Where is the outrage!

Lt. Whirlwind bared her fangs when she found out that Mark Finstein died. You see Mark had the misfortune of being assigned to Lt. Whirlwind's pet project: The Lifers Block here. It is Satan's playground and this truly evil siren takes perveerse pleasure in fucking with the men in that unit. Men with 20, 30, 40 plus years in prison, good men, who she places here ire for the opposite sex upon. That "train" left the station years ago, and everyone here knows it, but maybe it is time to let them public know about the "line" at the station? This hell-bitch laughed out loud, in the chowhall in front of tables full of prisoners and several of her male oxygen wasting partners, when she heard Mark had passed, and bitched that, "Now I have to fill another single cell in that unit", a process she uses to abuse men. Where is the outrage that someone who is paid a whopping \$75,000.00 a year is allowed to be so unprofessional. When did the DOC start employing antenna cops, water bottle detectives, peanut butter jar investigators, and locomotive operators as cops?

Deputy Denied -Oh made a Cathloic Priest hold his service in a classroom, keeping the Chapel closed while guards slept in the breakroom. Her claims of understaffing are as fake as her smile. This new Priest, first time visiting the facility, could not access his vestaments or the Eucharist. The put him in a classroom while our new Chapel, a Chapel we built, was left unopen. There were cops aplenty, like flies on a log of shit, but they laughed all the way to the bank as they dreamt of overtime, shift swaps, vacation days, personal days, sick days, and industrial accident leave. Where is the outrage???

More to come!
