

Chapter IV

They just keep cranking up the anger level here and the prison climate is nearing explosion level.

Lt. Whirlwind just cannot stop agitating the prison climate. She came in on a Sunday morning (we all know the Devil does not respect the Sabbath) and sent all the men in Unit C-1 to the gym so that she could conduct a "shakedown" of that unit. She does this on Sunday as there is no supervisory staff here to keep an eye on her, but her motives are that of pure hatred and anger toward prisoners. Her every action displays how she hates prisoners. They have given this She-Devil the run of six prison blocks with over 100 prisoners - prisoners she hates. Typical DOC operating procedure. She will not be able to deny that her story was being told when it all goes south - and it will definitely go south soon. I don't know when or how it is going to explode but you can only get away with poking a bear with a stick for so long. Lt. Whirlwind is going to poke the wrong bear (a bear who has nothing to lose) on the wrong day and some innocent folks will probably suffer due to her unprofessionalism and anger issues.

Captain Stupid and Stupider have now modified their climate agitating techniques. On Tuesday night they conducted what they call and "accountability check" in the Voc Ed building. What this meant was that the Catholic Eucharistic Service was interrupted three (3) times, once during the Gospel reading and once during the Gospel reflection, as well as at the very beginning of the service. They could not count correctly! No surprise: look at their names = Stupid and Stupider. The usual manner of such checks do not interrupt services or programs, but Stupid and Stupider made sure that their new method disrupts the already limited time slot. This is the second Tuesday in a row they did this. These guys are pure trouble makers and they make sure that they carry Lt. Whirlwind's climate agitation over to the 3-11 shift.

Lt. Whirlwind worked an overnight (11-7) shift on unit C-1. She woke men up in the middle of the night to have them uncover vents and windows. This never happens, but this angry she-bitch could not let the block rest. She cannot resist agitating men. The "Prison Rules" (the real 'old school' rules) go out the window when Lt. Hate-Bitch is working. The cops always let guys do laundry in the cells on the weeked. They let them cover the window to keep light out in the morning. They let them cover their heating vents if it got too hot. Lt. Whirlwind disrespects all these gentlemen's rules and is placing her fellow guards in danger as men are angry and agitated on the unit. The top is going to blow off of this pressure cooker and no one seems to care.

They are still shutting down the school and programs buildings even though they solved the fake "understaffing" problem by hiring 22 new guards. Now you have more guards sleeping in locked offices. They for men to fill their idle time with anti-social, pro-criminal behavior and to see their actions first hand you know that Deputy Denied-Oh plans it this way. Her purposeful plan to dismantle rehabilitation ensures her job and jobs for her loved ones. It appears that the psychosis from her old cocaine days has not escaped her evil brain as you would have to be

(2)

nuts to do things the way she does them.

I had a nice visit last week. A true abolitionist came to express her love to me, and I am grateful, but I am embarrassed that she had to wait an hour and forty-five minutes to get in here. This is purposeful as they want to deter people from coming back. You see the evil jailer fears the contact visit. They can't "listen in" like they do with phone calls. They can't "steam open and read" like they can with outgoing letters. They know that we can speak freely about the abuse that is being perpetrated against us. They know we can point out the failures that suck up the taxpayers dollar. They also know that people will get to witness the true humanity of the prisoner. That is their biggest fear. When good people can see that many prisoners are also good people, people who sometimes have made some serious mistake but are good all the same, it becomes difficult for the DOC to convince people we are the "worst of the worst" and deserve the rack like midevil times. The propoganda machine keeps turning and you pay \$365,000,000.00 each year in salaries alone for these layabout turnkeys. They rob the state coffers without even a small caliber pistol.

Men are working hard in here to get the word out there. Not just to complain but to propose workable solutions. I am fortunate to have a good group of men here to help with the work. We want to tell the ugly truths but also to educate that there is a solution. We can heal ourselves if the DOC would get out of the way. I have a right to rehabilitation. I am going to take that right by any means necessary.

DOC Budget = \$517,000,000.00

Recidivism Rate: 47%

Salaries = \$361,000,000.00

Overcrowding = 140% of capacity

Healthcare = \$98,000,000.00

Programming = \$10,000,000.00

Equals = Murders in Boston, Worcester, & Springfield!

YOU DO THE MATH!!!
