

Well we gave it to them good here at ShirleyWorld on May 23, 2013. We spoke truth to power, and they did not like it. They reacted like typical fascists: childish. They know more clearly that "I will shout the deadly failures of the DOC from the highest mountaintop I can find." No fear - no regret. The bastards have slurped at the truth, at the expense of young lives, for far too long. We need to rip the head of the evil pig away from the slop and begin to reallocate the funds where they will enhance public safety and save our youth. Death to the jobs program that is the DOC!

A real truth feeder here once told my friend Joe Lab that, "The sooner he realizes that no one cares that he is a decorated and disabled war veteran the better". Her anger seeths with the echo of self-hatred. That's her burden, but she found out on May 23, that State Representative Benjamin Swan cared about Joe's service. He cares about Billy and Frank dying in the hospital here, being willfully neglected by truth feeders and mental defectives. He cared that men here truly want to make a difference and have been able to avoid the Stockholm Syndrome that long-term incarceration breeds. Their antidote is their work: their "free speech". The administration here thinks we have lost that right, that right to complain about conditions of confinement, but they saw on Thursday, May 23, 2013, that they were wrong in that belief.

The administration is reacting typically. The Veterans Group here had a Memorial Day Event planned for Tuesday, May 28. The Deputy has now told them (as some of the group's members were ones who spoke "truth to power") that she will be running the event and that no prisoners will be able to speak. Veterans were going to recount the bravery of men they served with, but the truth feeding deputy cannot allow that. Men were going to play taps and the hymns of the service branches, but the pig headed deputy could not allow that. Old soldiers were going to bond, but the porcine devil cannot allow that. She would rather have men use drugs, make alcohol batches, gamble their families money away, get tattoos, or engage in some other anti-social behaviors. This way no one pulls the covers off of her hooves, no one exposes the truth slurping, no one sees the wizard behind the curtain. Keeping prisoners sick and addicted justifies her layabout payroll thievery. Strong men must expose this devil among us.

Representative Benjamin Swan told us on May 23 that we were "professional" and "powerful". He wants to videotape us to show to both the house and the senate. He recognizes that men change. He knows that our society is based on second chances. He is aware that the pigs in the DOC are eroding the social fabric. His streets, the mean streets of Springfield, are wet with the blood of children. So are the streets of Boston, Roxbury, Dorchester, Mattapan, Lawrence, Lowell, Lynn, and very soon, too soon, your community. The hog has wallowed in the manure of its failure for far too long. It is time for the slaughterhouse. Speaking truth to power can bring that about, but we need your support. You see these pigs are coming after the men who spoke out, who stood up for those who dare not or cannot.

To support our efforts here, and to insulate us from the wrath of the prison administration for speaking out, we ask that you make some phone calls or send some emails. Please contact the following listed individuals

and tell them you support our cause for public safety enhancement through the enforcement of the rehabilitative manadte and the reallocation of improperly placed funds in the department of correction;

Speak truth to power! Tell them you want your streets safe. Tell them you know that the current prison system, the troth, is releasing men unprepared and dangerous and that for a yearly cost of \$517,000,000.00 you expect more!!!

DOC Budget: \$517,000,000.00!!! = More Than Education Budget!  
Salaries = \$352,000,000.00!!!! = Troth Feeding Jobs Program  
Recidivism rate = 47% = Total Failure

"Who shall stand guard to the guards themselves?"
