RE: FROM ONE PLANTATION, TO ANOTHER PLANTATION

Dear Concern Reader:

In the Month of May 2013, I attended a modern day auction block slave trade Classification Committi, wherein I was duly infomed my black ass would be handed over to another plantation slave owner.

So, in the Month of June I received written confirmation by way of plantation mail, my transfer was endorced and finalized and I was to await my slave transportation ship.

On June 18, 2013, approximately 01:30 p.m., I left my plantion of three years and some months, San Luis Obispo Mens Colony, and was transported a hundred mile North bound to another plantation, Solodad State Prisen. As soon as I arived I was met by numerous fellow slaves, that I knew from ether slave plantations.

Over half of the sleeping dead walking zombies dont even know their asses is slave, and probably wouldn't even care for that matter. Nevertheless, I was immediately bombarded with the exact same story, the master of this new plantation was having alot of slaves transported to another plantation called (DVI) which was an entire slave reception center transportation colony location, Tracy Californi.

Between numerous slaves telling me they was to be trasported to the plantation of DVI, a few didn't waist anytime attempting to engage me obtaining legal assistance, and secretly praying that I end up being sent to the exact same plantation so they can take completely full advantage of my legal expertise.

Instead of the State of California, doing what the voters of the State of California, as well as the federal high Court has require of the State sworn Officials to do, California's State swon Officials are moving slaves from one plantation to another plantation.

The plantation that I just left from, hell, all the slaves got along with one another, ate off each other plate, black, white, hispanic. asian and anyother racial ethnicity group of individuals. Lived with each other, played with each other and even performed sexual acts upon each other, which was allowed and promoted by correctional officials.

Everyone minded there own business and there was [no] polotics or poloticians, and the Inmate population had a Nazi Germany big brother oversight of telling the guards everything, so if you did nothen, thats exactly what they made sure the Guards knew, that you did nothen.

Hell if I was the Governor of this State I would have made absolutely sure, each and everysingle prisoner due to be release transcend through a plantation like San Luis Obispo. Now they have me back on a plantaion wherein the races really dont interact with each other, definitely dont sit with each other, shower in the same shower, use the same phones, live in the same cells or do anything else togather, it a racially segregated area full of people with a Nazi Hitler type of Aparthied social ideology and misconstrude illusions that for individual people to live like this is rather socially acceptable.

But, who am I to pass judgment on someone else when I'm looked down upon as being absolutely no better a slave than the other slaves I share acre's of the plantation with because I'm here amongst the lot. One thing is for certain, I wont be spending anymore time on plantaions following my release. These are words from Allan Tracy Gilmore in testament and affirmation of life of a slave on a California slave plantation.

warm words from:
