"One Step Closer"

I'm one step closer to being executed for a crime I didn't commit. My last State Court appeal has just been shot down. It seems that the State Supreme Court agrees with the lower court's decision-- that my issue of newly discovered evidence is untimely & procedurally barred. It makes no sense when you look at why this evidence didn't come to light much sooner.

We discovered that the DA hid some exculpatory evidence that could've had a huge impact on the outcome of the trial. But the State Courts refuse to acknowledge the DA's complicity when they hid this evidence. I clearly demonstrated from the record the blatant lies the DA told to throw us off the scent of the evidence. And when I came into this evidence shouldn't matter when there's the interest of truth & justice at stake, which I've demonstrated here. There's also a man's life at stake here, my life!! The State's systemic indifference & flagrant disregard for truth & justice is perpetuating the decline for which the U.S. Constitution stood for: Life; Liberty; and the pursuit of Happiness.
