

5-13-13

Unit 426

BytWarEfour

sitting on the porch, watchin the boys in blue,
patroling the block, tryin to make a bust or two.
Gotta watch this unit, they got alot of damn tricks,
on the roof of their car, is the number 426,
you heard of the statement "good cop, bad cop,"
they're bad, sell you drugs, but you with the same rocks,
they'll roll up on you, but wont trip on you smakin joints,
only cops on the force, with nickel plated hollow points,
2 white guys in an all black hood, roll with guns off safety,
very athletic build, I had no gun, and they still chased me
call you out your name, guns are kept clutched,
they'll shoot your ass up, and wont call for back up.
At times I think, these guys aint really police,
dont serve and protect but hunt you down in the streets.
Everybody to scared to call downtown, and file a complaint,
cause you'll get way more than those, tight silver restraints
when you see them, you better hide your stash,
dont buy drugs on this block, may be some of their marked cash
be cautious, the patrol car they roll in is clean,
they got a gun in there, that look like it came from a marine.
Infra red beams, a machine gun in the door
I told you to watch it, get way more, than you bargain for
so when you see them, you know what they holdin,
better run for your life, when unit 426 is patrolin.
