

## ENDING FRAUDULENT REPRESENTATION

The following copy of the letter addressed to Bjorn [REDACTED] the attorney my trial judge over a decade ago assigned to (mis)represent me on appeal - is exactly why I requested the United States Attorney General, prosecute the evidence of racketeering in my case. Otherwise when my death warrant is signed, this attorney will be left free to continue filing fraudulent and frivolous appeals in my name. Assuring I will be executed without ever having received a fair and impartial trial, and appellate process. While making it appear on paper that justice has been served.

At this point, and time, I can only hope to have established the facts before this Court of Public Opinion to the degree of earning your help and support to help bring an end to the miscarriage of justice I suffer at the hands of a corrupt faction operating within Florida's legal community. Which the evidence clearly shows are guilty of racketeering.

Thank you for reading my blog, and please help me to network its contents to assure true justice is served.

Sincerely,

Milo Rose

Dear Bjorn [REDACTED];

As to our brief unannounced meeting here at Union Correctional Institution on Monday, July 1, 2013. I want to reiterate: not only do I want you to withdraw as attorney of record. I do not want you representing me in any way, shape, or form. To assure there can be no misunderstanding, I am making this a public declaration through posting copies of this letter online.
