

## Envy

Everything I am, you wish you could be.  
Never in all your life could you be me.  
Trying to find the peace and contentment of my life.  
Yearning to live without the stress or strife.  
My life is my own to live and enjoy.  
You can never penetrate it no matter the ploy.  
It's taken time; strength; patience, endurance  
and wisdom to become me.  
I have not always been this person that  
you strive so hard to be.  
Envy, I'm releasing the bondage that you have  
over me,  
It's time that you live your life and stop  
trying to be me.
