Greetings of Solidarity

From us who are buried alive behind enemy lines in these concrete toombs known as prison, To the friends and family of Trayvon Martin We send our love and strength and prayers, even though the verdict was handed down by the Jury, We know through our life long struggles to end racism in this country and abroad, God sees all. No unjustice will go unpunished. History shows us that together New AfriKans can overcome anything the oppressors through at us as long as we stay united in this struggle and continue to support each other through all and every circumstances. Unity in Masses moved mountains.

Love & Solidarity
