

My Ancestry-Mix is dedicated to James Oglethorpe who was a British Army Officer who became a Minister of Justice. He brought new ideas of prison reform to England. Between 1729 - 1733, thousands of prisoners and their families founded a colony that later became Savannah in Georgia. History shows the Georgia became the 13 U.S. Colony of what became the original Union called the United States of America.

#### MY ANCESTRY-MIX\*

I am Searching for my soul,  
my roots have been found in the rivers  
and on the mountains in the island  
of Cuba.

Taino Indians and African slaves  
send the splendor like the rain  
and sun. - The mixture of culture  
is given me a great treasure on earth.

Without country, I am America,  
my ancestors are many, I am sharing the  
blood of prison subculture,  
not only the pilgrims or  
puritans create America.

I am a debtor prisoner, Oglethorpe was  
my father and I became a founder of a  
wild land, my blood is not only  
with the natives of Cuba, but, I am  
the soul of Savannah in Georgia.

I never was recognized,  
but my Ancestry-Mix, is like  
God gave the birds the power  
of flight. - I am your own roots,  
because God made me a human being a  
member of your family.

My motherland, my Ancestry-Mix,  
my blood and roots are in you and me.  
Look at the mountains and touch me  
on the rivers you will see me,  
you can also watch me at the sunrise.

**My Ancestry-Mix is in you.**
